missioners Announce That Lot on Newstead Avenue Will Not Be Used for Stable Purposes.

At the meeting of the Board of Police Commissioners yesterday the protests of citizens living in the vicinity of West Pine boulevard, Laclede and Newstead ave-mes against the proposed erection of a police station were considered. No action en on the matter by the board, which laid the protests over without date. Doctor William R. Faulkner, superin-

Doctor William R. Faulkner, superin-tendent of police property, recently pur-chased for the department a 180-foot lot on Newstead avenue, next to the alley, be-tween West Pine boulevard and Laclede avenue. He paid \$6,600 for the property. It was purchased with the intention of erecting on it a police station for the Eighth District and not for a mounted district stable as has been stated. Citi-sens living in the vicinity believed that it was the intention of the department to keep all the horses of the Mounted Dis-trict at the stable, and at once entered a protent.

The plans of the Board of Police Commissioners, however, are to erect a main station for the Eighth District. The station now is located at Ewing and Manchester avenues. The district extends from Defierson sevenue to King's highway boulevard west and from Delmar avenue to the railroad tracks on the south. This is considered too much territory for one patrol wagon to cover, and it is planned to erect a new station on the lot on Newstead avenue. This would necessitate the keeping of but two horses at the station—those used to draw the patrol wagon.

The station, if erected, will be of handsome design, patterned much after that of the Seventh District erected two years ago. It would be modern in every respect, and some of the Commissioners believe would enhance the looks of the street rather than detract. If the new station is erected Captain Joyce's headquarters will be in it and the old station will be used as a substation. All horses will be kept at the old station except those used in the patrol wagon.

One compisint heard by the board was as to the patrol wagon dashing up and down Newstead avenue when it is called out to get a prisoner. This complaint the Commissioners do not regard as well The plans of the Board of Police Com-

Patrick Mack Supposed to Have

Been Hit by Car.

Patrick Mack, 28 years old, who lives in the vicinity of Twenty-third and Pine streets, was found unconscious by the crew of an Olive street car last night near Union and De Giverville avenues. He was placed on the car and taken to the office of Doctor A. V. L. Brokaw, No. 536 North Taylor avenue, where his in-

Sign North Taylor avenue, where his injuries, which consisted of various wounds about the body, were dressed, after which he was removed to the City Hospital.

At the City Hospital it was found that Mack was suffering from pneumonia. The police will endeavor to ascertain how Mack received his wounds. It is believed that he was struck by a car.

While crossing Seventh and Locust streets last night Benjamin Block, 4 years old, of No. 1023 North Seventh street, was knocked down by a wagon, the wheels passing over his left thigh, fracturing it. At the City Hospital the boy's condition was pronounced serious. The wagon was driven by Barney Allman of No. 52 North Fourteenth street and was owned by L. Cohen of No. 1912 South Seventh street, Allman was arrested and is held pending the result of the boy's injuries.

While alighting from a southbound Grand avenue car at Laciede avenue last night Mrs. Catherine Grunder. To years old, of No. 252 Laclede avenue, fell, sustaining a compound fracture of her left arm and internal injuries.

TRANSIT COMPANY MAKES A RECORD

> Gress Earnings \$65,000 More Than Made in Any Previous Month-Richard McCulloch to Assist His Father.

COMPARATIVE STATEMENT OF TRANSIT COMPANY. Gross Passengers Earnings. April, 1904......\$710,238 29,225,500 April, 1992..... 997,001 \$100,207

\*\*\*\*\*\*\*\*\*\* ording to the statement issued by the . Louis Transit Company yesterday, the cross earnings for the month of April 1904, were the largest in the history company.

The best previous record of the Transi Company was in October of last year, but it is stated that the gross earnings of last nonth exceeded the earnings of last Ocober by about \$55,000. In April, 1993, the gross earnings of the

Transit Company were \$607,631, which was the high record up to May, 1994, but the the high record up to May, 1994, but the carnings of last month were more than 17 per cent greater, being \$710,208.

Out of a total of 20,225,000 passengers carried last month, it is estimated that 13,208,700 were revenue passengers. In April, 1960, the total number of passengers carried was about 17,400,000.

Hased upon the gross carnings of last month, it is estimated that the daily receipts during April gained pearly \$2,500. Auditor Frank Henty also submitted the statement of the gross earnings for the statement of the gross earnings for the four months up to April 30, 1904, which ap-proximate 2.68.176, which contrasted with the same four months in 1906, shows a gain of \$300.582, or an average monthly betterment of \$15.479.

sain of \$36.5% or an average monthly betterment of \$5.5%.

The net earnings of the Transit Company will be given out only in the yearly statement of operations, it being stated that the operating costs are practically impossible to determine from month to mouth as the fluctuation, because of incidence weather and other conditions makes a wide variance. It is understood that General Manager McCulloch has saved the company about \$4.000 a year, but that a large part of this saving has been put into the cost of operating additional cars for the Fair traffic. A prominent stockholder of the Transit Company stated vesterday that the property has responded in a highly satisfactory manner to Mr. McCulloch's methods, and the officials of the company are very much pleased with the new manager.

methods, and the officials of the company are very much pleased with the new manager.

The Transit Company has fixed charges amounting in round numbers to \$2,000.00.

and it is believed that the surplis over the cost of operation will be more than sufficient to pay these charges, especially under the vigorous measures for retrenchment instituted by Mr. McCulloch, who has effected an organization rendering unnecessary the service of several high-salaried officials.

As soon as he can complete certain arrangements, Richard McCulloch, son of Captain McCulloch, Mile enter the service of the St. Louis Transit Company. An offer has been made to Mr. McCulloch, which he has accepted, and it is stated that he will act as his father's assistant.

Mr. McCulloch is now with the Chicago City Railway Company. He is recognized as being a first-class traction man, thoroughly conversant with the management and operation of traction properties in all departments. As soon as he can arrange to leave Chicago, Mr. McCulloch will come to St. Louis.

CONGRATULATES McCULLOCH.

Letters were sent yesterday by World's Fair Manager C. L. Hilleary to the man-Pair Manager C. L. Hilleary to the managers of the street-car companies, congratulating them on the excellent results obtained. In his letter sent to Robert McChilloch, vice president and general manager of the Transit Company, Mr. Hilleary says: "I feel it a pleasure as well as my duty to write to you and say how much pleased the World's Fair is at the excellent transportation facilities furnished by your company Saturday. April 29. You and all your men are certainly to be congratulated.

"The transportation has been just as good since the opening," continued Mr. Hilleary, "and we hishly appreciate the work of the three companies. Chicago, with her elevated rallway, her train and street-car service, was far behind the work of the St. Louis companies. The crowd Saturday was the largest on the opening day of any Exposition, and the best handled."

> SULTAN COMING TO FAIR AFTER DECAPITATING REBEL.

Ruler of Jolo in Philippines Hopes to Secure Head of Datto Asan Before Visiting St. Louis.

There is every indication that within a month the Sultan of Jolo will have taught Datto Asan a few points so that he can take forty of his head men and depart for the World's Fair. This ought to bring him here about July 1.

other Moros, but the Datto Asan thought that the impending departure from the island of the Sultan was a good time to start a sort of Santo Domingo revolution and make himself "IT," and he started his revolution.

The Sultan didn't want to lose his job.

his revolution.

The Sultan didn't want to lose his job, for it is hereditary, and aside from that it is the best that the Moros have and he had no intention of seeing a common hereditary Datto set himself up as the Sultan. The result was a vigorous campaign that promises to end with all the giory on the side of the Sultan, and with the Datto not only losing his cause, but his head as well.

The Sultan didn't like the idea a little bit of being left behind when his other people went away, and this has added a vigor to his campaign that has doubtless been of some surprise to Datto Asan. The inter has long been a disturbing element in Northern Jolo. Several times he has sought to incite the people to rebel against the Sultan, and his idea has been that if he could stir up a big enough rehellion it would be easy to seat himself on the throne.

When he heard that the Sultan was go-

the could stir up a big enough rebellion it would be easy to seat himself on the throne.

When he heard that the Sultan was going to America he thought his opportunity had come. Immediately he began circulating reports that the Sultan was going over to the Americans and he had no intention of coming back, and it is easied that the Datto used the Mohammedan religion as a wedge, stafing that the Sultan was going to suppress Mohammedanism in the Island. The Moro will gladly die rather than give up his religion.

Datto Asan soon gathered a formidable party around him and then sprung his revolution. The Sultan let it slide along for a few weeks and then, as he saw it assuming too great a magnitude, he went after the Datto with a vengeance, giving up his contemplated trip to the World's Fair temporarily. The Sultan has now got the Datto in a corner, as it were, and he thinks it will be about a month before he has got the Datto's head, and then all will be peace.

The Sultan of Jolo rules over about 200-000 people, and he is a power, the Datto's head, and then all will not of their districts. Asan was practically alone in his rebellion, none of the other Datto's loning him in his rebellion againet the Sultan.

"The Sultan means bushness when he starts a campaign," seld W. H. McWilliams, now one of the guards in the Philippine concession, but who was with the Sixth Infantry in Jolo and a Sheriff for the Sultan, to whom the Sultan wrote of the Datto's rebellion.

"Whenever the Sultan starts out he never stops until he's got the heads of the rebels, and you can bank on it that before he shows up in St. Louis he will have had the head of the Datto's as with the Sixth Infantry in Jolo and a Sheriff for the Sultan, to whom the Sultan wrote of the rebels, and you can bank on it that before he shows up in St. Louis he will have had the head of the Datto's head and in head of the Datto's as the will have had the head of the Datto Asan, who has always been a trouble maker.
